

# Effects of inadequate care for mine detection dogs on their performance quality in mine action activities

**Nermin Hadžimujagić**  
**Mine Detection Dog Center for South East Europe**

# MDD IN MINE ACTION

- Why dogs?
- Where are the mine detection dogs being used?
- What breeds of dogs to use?

## DISADVANTAGES NOTED

- Transportation of dogs
- Inadequate care
- Low quality training
- Accommodation of dogs during the field work
- One handler working with two or more dogs
- The dog's rest

# MEASURES FOR IMPROVING MDD TEAM PERFORMANCE

- Training of personnel in charge for testing MDD teams
- Preconditions set for handlers
- Care for MDDs

# PRECONDITIONS FOR ACHIEVING GOOD RESULTS IN MDD PERFORMANCE

- Selection of dogs
- High quality training
- Proper daily care and health care
- Conditioning

# THANK YOU
