Political Military Achievements

Enhancing Capacities in De-mining, reduced risk to the population
  ▫ Cleared more than 3 million m2 in the last 8 years
  ▫ Cleared more than 16,000 landmines and explosive devices

Enhanced Central Asian Capacity in dealing with Explosive Hazards
  ▫ Since 2014, 269 students from Afghanistan, Georgia, Kazakhstan, Kyrgyzstan, Mongolia, Tajikistan, Turkmenistan and Uzbekistan in EOD 1, 2, 3 and related courses

Enhancing Military-to-Military cooperation
  ▫ Explosive Hazards Risk Reduction and Response serves as a way to open doors for other cooperation.
Political Military Areas of Development
What we plan to do!

Integration of all risks related to Explosive Hazard
- Arms Control, SALW, PSSM and Mine Action as an integrated concept
- Development of resources for dealing with EOD spot tasks and residual contamination
- Develop early warnings, prevention and response to changes of the explosive threats in CA

Support to Non-Proliferation of Weapons of Mass Destruction
- Assistance to implementation of National Actions Plan (2016-2021) under UN SCR 1540
- Improvement of security conditions within laboratory facilities of Identification Centre on Radiation and Nuclear Security
- Assistance on Exports Control and Non-proliferation of WMD

Assistance to Mine Action
- Institutionalise the Regional Explosive Hazards Training Centre under MoD
- Increase international and regional cooperation and exchange
- Formation of standing EOD teams in Central Asia
Building for the future, Regional Explosives Hazards Training Centre
